QUALIFOR is the forest management certification programme of the Forest Stewardship Council (FSC), the world's largest independent audit body.
The programme in which this certificate is issued was created and developed by FSC and the International Council for the Management of Forests (ICM) in cooperation with the named forest management plan holders and the national governments of the countries in which the forests are located. The programme is subject to the control and supervision of FSC and ICM.
The audit and certification of the forest management plan holders is carried out by SGS, a member of the SGS Group, which is an independent audit body. The certificate number is SGS-COC-1031.
